

What is the problem?

Only in the EU, we generate every year around **89 million tonnes of Food Loss and Waste**, accounting for **20% of the total food produced**, with costs estimated at **€ 143 billion**, impacting each stage of the Food Value Chain.

The SISTERS solution in a nutshell:

What will be THE IMPACT of SISTERS?

SISTERS will be a key EU project addressing the problem in a holistic way, reducing Food Loss & Waste by 27.4% and CO₂ emissions by around 20% in the case studies.
